### Memorandum

**TO:** CHART Committee  
**FROM:** Melissa Barlow, Director of Transportation Programs  
**DATE:** May 26, 2008  
**RE:** Draft FY09 Transportation Improvement Program (TIP)

As approved by the Charlottesville-Albemarle MPO Policy Board in March 2008, the Fiscal Year 2009-2012 TIP format will provide project information for all projects in the MPO area in their respective groupings, except for those that the MPO Policy Board expressly requested be ungrouped. At the April 2008 meeting, the MPO Policy Board approved a list of projects to be ungrouped. The list of projects is enclosed with this memo (Attachment A).

In addition to the new STIP/TIP grouping process, VDOT is working towards streamlining its system investment process by aligning the Six-Year Improvement Program (SYIP) and TIP processes. As such, less project information is being shown for projects contained in the TIP. On pages 1-3 of Attachment B, please find examples of the proposed new format. The additional pages of the enclosed document provide an example of how grouped projects will be presented in the FY09 TIP, as well as Appendix A, which contains project information for all of the grouped projects as provided thus far by VDOT. The document does not yet contain information from DRPT. VDOT has recommended that the MPO also enclose the current Six Year Improvement Programs for all highway, public transportation and rail projects as an appendix to the FY09 TIP to provide the public with more project information, as well as directing interested members of the public to VDOT's online project information system.

The MPO Policy Board is currently reviewing the new FY09 TIP format being proposed by staff. The public will have an opportunity to comment on the draft FY09 TIP via a public hearing at the June 18, 2008 Policy Board meeting.

**Project P-7: Rt. 29 Western Bypass (cont'd)**

**PROJECT LOCATION:** Rt. 250 Bypass to Rt. 29 North of South Fork Rivanna River

<b>ADDITIONAL INFORMATION</b>	
<b>Purpose:</b>	Alternative route around US29 North of Charlottesville
<b>Endorsement:</b>	
<b>Environmental Review:</b>	Supplemental Environmental Impact Statement (SEIS) Completed
<b>Other:</b>	In past years, the MPO has endorsed funding for Preliminary Engineering and Right of Way, and has withheld endorsement of funding for the Construction or accrual of Construction funding until the issues identified in the TIP Resolution were addressed. (See the MPO resolutions on US 29 Bypass Funding and TIP endorsement.) The MPO continues to oppose the current design of the proposed bypass, but is including the bypass in the TIP to allow for completion of right of way litigation. While the MPO is aware of regional transportation needs, the MPO is concerned about the proposed bypass because it would negatively impact area schools, neighborhoods, and the community's water supply. The MPO also believes improvements at intersections on existing Rt. 29 could greatly improve regional through capacity. In addition, a VDOT study had showed there would be little improvement to the traffic conditions on the Rt. 29 corridor in the area, if the proposed bypass were built. On November 12, 2002, the MPO passed a resolution regarding the proposed bypass.
